Software Engineer | Full Stack (MERN)

## EDUCATION

---

South Valley University

Computer Science

4th Year Student

Major in Computer Science

Cumulative GPA: 3.18 /4.0

Qena, Egypt

(September 2021 - June 2025)

## COURSES

UDEMY – React - The Complete Guide 2024 by Maximilian.

COACH ACADEMY – Level 3 Problem-solving - Universities - Spring23 Phase 1

## SKILLS

---

- **Technical Skills:** C++ | OOP | Data Structures | Algorithms | React | node.js | Mongo.db | TypeScript | Git & Github | C#.
- **Additional Skills:** Soft Skills.
- **Personal Skills:** Problem Solving (+3000 problem) | Teamwork | Fast learning | Time Management | Team Leader.

## PROJECTS

---

### Portfolio - WebApp — *portfolio website* [\(Demo\)](#) [\(github\)](#)

October 2024

- My portfolio to know more about me.
- **Technologies Used:**
  - Frontend: React, React Router, React Query, Axios, Gsap, Swiper, Tsparticles, JavaScript, CSS Module.
  - Backend: Node.js, Express, and MongoDB.

### Quick-Quiz - WebApp — *quick-quiz-full-stack project* [\(Demo\)](#) [\(github\)](#)

February 2024

- Quick Quiz is a web application for creating and taking quizzes (MCQ) online. It allows users to easily create quizzes, share them with others, and take quizzes created by others.
- **Technologies Used:**
  - Frontend: React.js, React Router, Axios, CSS, Bootstrap.
  - Backend: Node.js, Express.js, MongoDB, Mongoose.
  - Deployment: Render (Backend), Netlify (Frontend)

### React-Food – WebApp — *react-food project* [\(Demo\)](#) [\(github\)](#)

December 2023

- This project is a React-based food website that displays a menu of food items. Users can browse through different food items and choose from them.
- **Technologies Used:**
  - Frontend: React.js, React Router, Axios, CSS, Bootstrap.
  - Backend: Node.js, Express.js, MongoDB, Mongoose.
  - Deployment: Render (Backend), Netlify (Frontend)

## AWARDS

---

- 52<sup>th</sup> place out of +200 team in the 2022 ECPC Qualifications Collegiate Programming Contest.
- 19<sup>th</sup> place out of +200 team in the 2023 ECPC Qualifications Collegiate Programming Contest.
- Qualified to 2023 ACPC Arab Collegiate Programming Contest.

## ACTIVITIES

---

- Head of training ACPC SVU community.
- Problem setter in ACPC SVU community.
- Instructor in ACPC SVU community.
